

ENGINEERED COMFORT ENDURING SAFETY

WE'VE PERFECTED PROTECTION

DELIVERING ULTIMATE **HAND & WORKWEAR PROTECTION**

SINCE 1978

IHSAN PAKISTAN

KNITTED GLOVES

IHSAN was established in 1978 in Karachi with humble beginning as glove knitting unit with a vision to become a pioneer in the field of work safety and protective gear. Starting with just fifteen computerized Japanese Shima Seiki machines, IHSAN's manufacturing facility today has over 350 state-of-the-art gloves knitting machines including 7, 10, 13 & 15 gauge and seamless terry loop pile machines.

Initially, IHSAN focused on producing plain knitted gloves for the Japanese, German, Australian and UK markets. However, in 1996, the addition of PVC coating equipment allowed it to expand its product range to meet the international requirements for Dotted Criss-Cross gloves, all of them with CE Certifications.

DIPPED GLOVES

In 2007, IHSAN stepped into further diversification in the hand protection field by installing a Latex/Nitrile dipping plant. We have 3 fully automatic dipping lines for producing high-quality palm, knuckle & fully-coated gloves on seamless, interlock, safety cuff jersey as well as crinkle-coated on gauntlet liners, all of which are CE certified to meet the highest International quality standards.

HIGH-QUALITY WORK WEAR

Building on their vision to diversify their product range, IHSAN established a Garment unit with over 50,000 pieces monthly capacity of high quality workwear. IHSAN Garment Division specializes in niche workwear categories with focus on premium and technical garments. Sourcing superior quality fabrics from well renowned textile airjet fabric manufacturing units with in house dyeing and printing facility. IHSAN is proud to have a complete team of dedicated professionals from Design to Finish making sure our customers receive the utmost quality and perfection in their product range with on time deliveries.

LEATHER GLOVES

IHSAN also makes leather gloves which includes Drivers, Riggers, Welders in all types of grains and split leather from LWG certified tanneries.
